Learn Beyond your Field of Interest

Professional Development to Elevate your Knowledge and Skills

Eye 2018

Speakers Representation from 50+ Countries

1 Conference | 3 Days | 4th Conference in Ophthalmology Series

10 Keynote Talks | 70 Plenary Speakers | 18 Interactive sessions

Symposia | Workshops | Best Poster Award

200 Attendees | 50 Professors | and many more . . .

Greetings!

Welcome to most exciting and fascinating London, UK!

Within this splendid setting, we plan to deliver a conference that will exceed your expectations.

During this year's Conference, we hope that you will seize the opportunity to rekindle ongoing connections and spark new ones with your colleagues from around the globe. It's with great pleasure and great honor to invite you to the "**4th International Conference on Ophthalmology and Eye Disorder**" scheduled during **November 01-03 2018** at **London, UK.**"

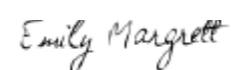

The Conference will be organized around the theme "**Technological Advancements in Restoring Vision: Vision for Life**"

Eye Congress 2018 anticipates more than 500 participants around the globe to experience thought provoking Keynote lectures, Oral & Poster presentations. This year conference will offer ample opportunities for all stakeholders working on Ophthalmology , Eye Disorder and Optometry to expose their research work.

Our conference aims to gather the Researchers, principal investigators, experts, Ophthalmologists and researchers working on eyes from both academia and health care industry, Business Delegates, Scientists and students across the globe to provide an international forum for the dissemination of original research results, new ideas and practical development experiences.

This year's Conference program, coupled with the Business Opportunity Exchange, is an event you can't afford to miss!.

Sincerely

Emily Magrett

Program Manager | Eye 2018

Organizing Committee

We are back again! Conference that dedicated to Innovate Solution to the Public Health Challenges, one conference which future the shape of Ophthalmology and Eye Disorders. Our Conference will organize and allow to access the global researchers around the world in a single platform. Eye 2018 will provide a great opportunity beyond any comparison to attend and network with Ophthalmology Community.

Join us at our 2018 edition of Ophthalmology and Eye Disorder to Experience the Global Ambiance with the Researchers who work with similar significance of research. Eye 2018 will help you to get answers to all your queries related to your research work and also it creates a great opportunity to make new associations and also helps to foster potential partnerships. Eye Congress 2018 will be an great platform for you to create long lasting relationship with the fellow researchers from Ophthalmology Community.

Get worldwide acknowledgement to your research profile where more than 55000 Visitors who analyzed our conference website to attend and submit proposals of their research work. Where this was recorded as the highest number of Visitors from both, developed and developing nations. While we penetrate the study of visitor, navigation, and traffic patterns to determine the success of our conference website majority amount of traffic we receive from cities like New York, London, Valencia, Amsterdam, Madrid, Barcelona, Athens, Sydney, Paris, Frankfurt, Tokyo, Osaka, Melbourne, Moscow and Vienna.

Eye Congress 2018 website is attracting 56000+ Ophthalmologist, Ophthalmic surgeons, Neuro-ophthalmologist, Optometrist, Research Scientist, Ophthalmology Organization and societies, Pharmaceutical Companies, Ophthalmic Drug Industries., Professors and Students..

This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

Eye 2018 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Awards Banquet and Closing Ceremony

Purpose

With members from around the world focused on learning about Ophthalmology and Eye Disorder, this is your single best opportunity to reach the largest assemblage of participants from the scientific community.

Conduct demonstrations, distribute information, meet with eminent personalities, and make a splash with latest research innovations at this outstanding event.

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration.
- The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Ophthalmology and Eye disorder to present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address eye diseases and Ophthalmology problems and overcome barriers that limit access to care and services.

Objectives

- After participating in this meeting, attendees should be able to
- Discuss emerging issues in Ophthalmology & Eye Disorders
- Discuss and apply recent research findings related to Ophthalmology and eye disorder
- Disseminate the diverse voices of breakthrough innovators with visionary and practical solutions.

Who should attend?

Ophthalmologist, Eye Surgeons, Ophthalmology Researchers, Neuro-ophthalmologist, Ophthalmology Organizations and societies, Business delegates, CEO's and R&D Heads from Industries, Directors, Industrial Leaders, Pharmaceutical companies, Ophthalmic Drug industries, Ophthalmology associations and foundations, Professors and Students from Academia in the study of ophthalmology and optometry and researchers who utilize novel techniques and knowledge in diagnosing and treating ophthalmology and optometry..

CME & CPD

Eye 2018 has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Committee

The live format of this educational activity will be accredited with CME and CPD Credits.

Diverse Action-Oriented Programming & Networking

EXPERIENCE: Inspiring change around the country and world, growing a revolution from the heart of eye and ophthalmology research.

EXPLORE the forefront of breakthrough ideas and models in electrifying morning keynote talks, featuring luminaries and “the greatest people you’ve never heard of.”

PARTICIPATE in afternoon panels and workshops/symposiums on diverse topics of Ophthalmology, eye disorders, glaucoma and more!

NETWORK with a community of leadership – dynamic change makers from around the country and world, or from your region, to develop important professional and personal relationships.

SHARE your insights and learning at the conference in participatory and experiential workshops.

DISCOVER powerful opportunities and strategies for creating and engaging with progressive change in your work, life and community.

CELEBRATE how great a difference one person can make, and how building community amplifies that change.

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manuscripts in our Open Access Journals

After an awesome response towards Eye 2018, we are back again with this inventive part of the ophthalmology program. Try not to miss the Eye 2018 Conference arrangements composed particularly for the leaps forward in ophthalmology and ophthalmic research.

Join along with us for Eye 2018, where the Global Investigators, Clinicians and care suppliers assemble to share the most recent findings and results, speculations and disclosures that will bring the world nearer to achievements in ophthalmology and ophthalmic research.

Eye Disorders, including glaucoma, is one of the greatest worldwide public health challenges confronting our era. Around the world, no less than 60 million individuals are living with glaucoma currently where this number is expected to increase by end of 2020 it will increase to 80 million.

The analyst predicts during the period 2018-2022 the ophthalmology device market will grow to USD 84.16 billion. The largest region of ophthalmic devices is in Asia-Pacific with a share of 33%. North America stands as the second largest region with a market share of 29%. The smallest region was Africa with a market share of 3%. According to a study in 2011, the worldwide ophthalmic market was \$17.5 billion and is expected to grow by the year 2023 to \$34.7 billion, thus indicating a 5.9% of compound annual growth rate. Ophthalmic product market crosses USD 22 billion worldwide and is growing at a rate more than 10% per year. The inclusion of ophthalmic products, eye care products the market is USD 17 billion.

Europe Ophthalmic market size is indicated to grow from \$8.0 billion in 2017 to \$10.2 billion by end of 2024 by maintaining a Compound Annual Growth Rate CAGR of 5.2%. European medical device market consists of medicals instruments like ophthalmic devices, orthopedic devices, dental devices, consumables and respiratory devices. Considering 2015 as the base year the global ophthalmological market by 2021 is estimated to reach USD 58.05 billion, with a CAGR of 3.7%. The Organizing Committee of ophthalmology series is sorted out for every year, ophthalmology series and incorporates exceptionally prominent universal specialists in a variety of topic areas who are focused on building up the most important and inventive subject and agenda for this year's meeting. In particular, the Organizing board decides the welcomed talks and finalizes the oral & Poster sessions towards the conference.

1 Conference | 3 Days

As a result of speedy growth in world population, patients with eye diseases and patients with Cataract, Glaucoma is increasing every year thus stabilizing the ophthalmology market which experienced a downfall in the year 2008-2009. According to a survey, the total world population suffering blindness because of Cataract and Glaucoma are 48% and 60 million respectively. By the end of the year 2020, it is predicted that people suffering from Glaucoma will be 80 million.

According to the World Health Organization(WHO):

Estimated population to be suffering from visual impairment worldwide is 253 million of which 36 million are blind and 217 million people have moderate to severe vision impairment.

Approximately 81% of people aged 50 years and above are suffering from blindness or moderate to severe vision impairment.

80% of all vision impairment cases can be prevented or cured.

The field of ophthalmology is experiencing an increased use of robotic systems. Robot-assisted surgeries provide an advantage to surgeons like to perform complex surgeries with increased precision, the amplified scale of motion, decreased tremor, flexibility and task automation.

Global Market

Ophthalmic devices are used for patients suffering from disorders like Cataract, Glaucoma, Presbyopia, Dry eyes, Retinal Disorders, and Conjunctivitis. Continuously changing trends in lifestyle, diet and increased longevity helps to grow market for ophthalmological treatments.

The analyst predicts during the period 2018-2022 the ophthalmology device market will grow to USD 84.16 billion. The largest region of ophthalmic devices is in Asia-Pacific with a share of 33%. North America stands as the second largest region with a market share of 29%. The smallest region was Africa with a market share of 3%. According to a study in 2011, the worldwide ophthalmic market was \$17.5 billion and is expected to grow by the year 2023 to \$34.7 billion, thus indicating a 5.9% of compound annual growth rate. Ophthalmic product market crosses USD 22 billion worldwide and is growing at a rate more than 10% per year. The inclusion of ophthalmic products, eye care products the market is USD 17 billion

European Market Analysis

Europe Ophthalmic market size is indicated to grow from \$8.0 billion in 2017 to \$10.2 billion by end of 2024 by maintaining a Compound Annual Growth Rate CAGR of 5.2%. European medical device market consists of medicals instruments like ophthalmic devices, orthopedic devices, dental devices, consumables and respiratory devices. Considering 2015 as the base year the global ophthalmological market by 2021 is estimated to reach USD 58.05 billion, with a CAGR of 3.7%.

“UK’s capital offers a unique blend of imperial traditions and stunning architecture. Famous for its many cultural events, classical concerts.”

London is a popular city in human expressions, business, training, stimulation, design, finance, media, proficient administrations, innovative work, tourism and transportation. It is the world’s biggest monetary focus and has the fifth or 6th biggest metropolitan region GDP on the planet. London is regularly viewed as a world social capital. It is the world’s most-visited to city as estimated by universal arrivals and has the world’s biggest city airplane terminal framework estimated by traveller activity. It is the world’s investment destination, facilitating more universal retailers and ultra-high-total assets people than some other city. London’s colleges frame the biggest convergence of advanced education organizations in Europe. In 2012, London turned into the primary city to have facilitated the modern Summer Olympic Games three times.

London contains four World Heritage Sites: the Tower of London; Kew Gardens; the site involving the Palace of Westminster, Westminster Abbey, and St Margaret’s Church; and the memorable settlement of Greenwich (in which the Royal Observatory, Greenwich characterizes the Prime Meridian, 0° longitude, and GMT). Different milestones incorporate Buckingham Palace, the London Eye, Piccadilly Circus, St Paul’s Cathedral, Tower Bridge, Trafalgar Square and The Shard. London is home to various exhibition halls, displays, libraries, donning occasions and other social foundations, including the British Museum, National Gallery, Natural History Museum, Tate Modern, British Library and West End theaters. The London Underground is the most established underground railroad organize on the planet.

Denmark's Climate:

London has a calm maritime atmosphere, similar to all southern England. In spite of its notoriety for being a blustery city, London gets less precipitation in a year than Rome, Bordeaux, Lisbon, Naples, Sydney and New York City. Temperature extremes for all destinations in the London region extend from 38.1 °C (100.6 °F) at Kew amid August 2003 down to -16.1 °C (3.0 °F) at Northolt amid January 1962.

Currency: Pound

Transport within London :

Train: The London Underground, ordinarily alluded to as the Tube, is the most seasoned and second longest metro framework on the planet. The framework serves 270 stations and was shaped from a few privately owned businesses, including the world's first underground electric line, the City and South London Railway. It dates from 1863.

Air links: London is a noteworthy global air transport center point with the busiest city airspace on the planet. Eight air terminals utilize the word London in their name, however most activity goes through six of these. Furthermore, different airplane terminals additionally serve London, basically to general aviation flights.

Cable Car: London's first and final link auto, known as the Emirates Air Line, opened in June 2012. Intersection the River Thames, connecting Greenwich Peninsula and the Royal Docks in the east of the city, the link auto is coordinated with London's Oyster Card ticketing framework, albeit unique tolls are charged. Costing £60 million to construct, it extends 3,500 travelers consistently, in spite of the fact that this is particularly lower than its ability. Like the Santander Cycles bicycle enlistment, the link auto is supported in a 10-year bargain by the carrier Emirates.

Cycling: In the entire Greater London Area, around 650,000 individuals utilize a bicycle each day. In any case, out of an aggregate populace of around 8.8 million, this implies just around 7% of Greater London's populace utilize a bicycle on a normal day. Cycling is by and by ending up progressively prevalent approach to get around London. The dispatch of a cycle procure enlistment in July 2010 has been effective and for the most part generally welcomed. The London Cycling Campaign campaigns for better arrangement. There are numerous cycle routes in London, including a few Cycle Superhighways.

Accompany Partners' Policy:

We respectfully remind you that partners accompanying delegates/speakers are not eligible to attend conference sessions and do not qualify for refreshments and lunches during the day unless they have registered.

Any partner wishing to attend events not previously selected and paid for in his or her registration may do so at the Conference Registration desk.

We would be pleased to accommodate any requests where possible.

Registration and Accommodation

Policy:

Registration and accommodation changes will not be accepted unless made in writing.

Changes made within 14 days of the event may incur costs due to specific hotel and venue policies

Cancellation Policy:

Registration cancellations will not be accepted unless made in writing.

Cancellations request made before 15 October 2018 will be refunded less 25% of the Conference Registration fee, to cover administration costs.

No registration refunds will be processed after this date, however, substitute delegates are welcome.
